National Adult Day Services Week - September 19- 25, 2021

Adult day care centers provide supervised community settings in which partially disabled men and women of all ages can obtain care that may not be available in their own homes. These centers provide opportunities for adults who are socially isolated to find friends and learn skills. Day care centers enable individuals to obtain the care they need without being forced to live in institutions, and they offer needed respite to families whose infirmed relatives live with them. -From Proclamation 5107, Ronald Reagan on September 27, 1983
